-----

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the ...

Yaounde is implementing an integrated distributed power generation, storage and management system in order to ensure a secure energy supply for its street lighting assets, a ...

With the establishment of a large number of clean energy power stations nationwide, there is an urgent need to establish long-duration energy storage stations to absorb the excess electricity ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

The Yaounde grid-side energy storage project aims to change this narrative through its 52MWh lithium-ion battery array - but is this just a Band-Aid solution or a real game-changer?

The limitations of traditional grid power, such as capacity constraints, lack of transmission infrastructure in remote areas, and the increasing electricity demand, have pushed many ...

The power station, with a 300MW system, is claimed to be the largest compressed air energy storage power station in the world, with highest efficiency and lowest unit cost as well. [pdf]

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with ...

This article provides a comprehensive guide on battery storage power station (also known as energy storage
